

LDMS USER GROUP MEETING

February 12, 2024

Agenda

- Recap of Best-practice workgroup
- Q&A

Recap of Best-practice Workgroup

- Planned changes coming in v4.5.1
 - Removal of the daemonized mode of LDMSD
 - Simplify LDMSD configuration
 - Remove extraneous command-line options
 - Support all command-line options and environment variables in configuration files
 - Support the YAML-format configuration file in LDMSD

Q&A

- The precedence among environment variables, command-line options, and configuration files
 - Evan will propose an order
 - Nichamon will compile all current precedences
-
