LDMS User Group Meeting

February 13, 2023

Overview

- 4.3.10 is released
- 4.3.11+ / Top of Tree
  - Combined configuration into single ldmsd_communicator module
    - Working through some debug issues
  - Fixed ldms_xprt_listen_by_name to support wildcard addresses
  - Improvements to the ldms_proc_sampler
  - Warning/error if attempting to store metric sets with lists of different lengths without decomposition
- 4.3.11+ WIP
  - Conveying uid/gid/perm in streams messages
    - Authorizes only certain users/groups to see streams data
  - Kafka-Avro Store
    - Registers schema with the Avro schema server
    - Uses decomposition to forward streams data to the Kafka bus as Avro serialized messages

Q & A
