LDMS USER GROUP MEETING

June 16, 2025

Agenda

- V4.5.1 Release Candidate
- LDMSCON2025
- LDMS-UG Board Open Position
- Q&A

V4.5.1 Status Updates

- Tag the v4.5.1 RC1 by tomorrow

LDMS Daemon Default Logging Settings

- Pull Request: https://github.com/ovis-hpc/ldms/pull/1809
- Current behavior:
  - Prefix all log messages with timestamps
  - Default log levels: ERROR and CRITICAL
- Proposed changes:
  - No timestamp prefix by default (configuration via environment variables)
  - Default log levels: WARNING, ERROR, and CRITICAL
- Question:
  - What are your thoughts on these proposed defaults?
